SENATE VOTES FOR RESERVING SIDEVALUATION

Roosevelt's Power Regarding U.S. Money Bill Passed in New Bill

WASHINGTON, July 6.—The hard-fought bill concerning the United States dollar and the \$2,000,000,000 currency stabilization fund cleared its last congressional obstacle today when the Senate approved it, 63 to 38. But a vehement dispute about its legality still raged.

Republicans insisted that since the President's power expires at midnight last Friday, no measure to "continue" them was held valid. They said the administration would have to start all over again with a different wording.

Administration officials brushed aside the objections as unfounded, and the President's power to continue the currency stabilization fund was upheld.

Treasury officials drafted regulations for purchase of domestic gold at 71 1/2 cents per ounce. A second sale for such a price (which contrasts with the old price of 68 1/2 cents an ounce) was forced into the monetary bill by members of the Senate from the western silver states.

The measure contained nothing about foreign silver, thereby leaving the treasury free to continue buying the metal from Mexico and other sources. It was believed a purchase price of this kind would be announced at noon tomorrow.

The Senate vote also made no change in the \$25-an-ounce price for gold, the bill merely authorized the President to change it in emergency cases. It permits him to raise the price which is the way the dollar is devalued, a maximum of \$41.33 per ounce.

Paper Advises British Send Money To Canada Rather Than Poland

LONDON, July 6.—Projected British credit to Poland would be better spent in Canada, Newfoundland and Australia for the purchase of armament facilities, the Daily Express (Independent) said today.

"Soon you will be lending big sums of money to Poland," the newspaper told its readers. "It will not be used for the building of bridges or the digging of trenches. It will go to pay the salaries of officers and men already mobilized."

Texas Company Is Leading Importer Montana Gasoline

CALGARY, July 6.—A. A. Appleton of the Alberta provincial secretary's department Wednesday told the Calgary Herald that the Texas Company is leading importer of Montana gasoline in the province.

Into Alberta during 1938 which constituted 12.2 per cent of taxable gasoline sold.

The Texas Company of Canada was the leading importer of gasoline into Alberta, although importations were also made by smaller companies, including the Imperial Oil Company, Hydro-Petroleum, Drummond Independent Oil Company, and others.

The witness estimated that probably 300 or 400 individuals crossed the international boundary into Montana and imported gasoline into Alberta.

Prime Minister Mackenzie King said he was writing to Dr. Joseph Sirois, chairman of the commission, asking for a definite indication of when its report will be ready.

It has been generally expected the commission's report would have some bearing on the general election if one held this fall, and that it might possibly provide a basis for the province and the dominion to study the report.

ROWELL GROUP REPORT DELAYED TILL NEXT FALL

OTTAWA, July 6.—Report of the Royal Commission on Dominion-Provincial Relations which started its hearings in November 1937, is still uncompleted, it was learned today, and may not be ready until next fall.

Continued From Page 1 Poland

"No" the Polish leader replied, with a smile, "but you have."

Due to the nation's high birth rate, the population of 34,000,000 is increasing at the rate of 1,000,000 trained men in the field as compared to possibly 500,000 for Germany.

NORMAL ARMY FIGURES

But Germany with approximately 8,000,000 population does not have 2,000,000 men, with full conscript training as in Poland.

The normal Polish army is about 500,000, but more than a million are under arms today and thousands of reserves, many men drill daily in Warsaw suburbs and attend courses at night with anti-aircraft armaments.

Judge Crater's Widow Sues To Recover Insurance

NEW YORK, July 6.—The widow of the long-jumping Justice Joseph P. McKenna of the New York state court today sued to recover \$50,000 from the New York Life Insurance Company for the death of her husband.

The Polish aerial force, however, would be helpless against Germany's great aerial armada without help from Britain and France.

TWO WEAKNESSES

Strategically Poland has two great weaknesses: First, there is a 100-mile front line, and the entire western frontier would be vulnerable and probably would be overrun in short order in event of a first frontal defense in the north, at least, probably would be overrun in short order.

Soviet Says Japanese Suffer Huge Losses of Soldiers, Planes

MOSCOW, July 6.—A Soviet communiqué last night said "About 800 Japanese Manchukuoans were killed and 45 Japanese planes shot down during heavy fighting between Manchukuo and Russian troops last three days on the border."

The communiqué, distributed by Tass, official news agency, said Japanese forces had lost 1,000 killed, 300 wounded, and nine planes.

Three Children Of One Family DROWN IN LAKE

HALIFAX, July 6.—Three children of one family drowned in a lake near the city today, having been taken to a picnic spot by their mother.

The children's mother, Mrs. George Yeadon, resident near the lake nine miles from Halifax, was on the beach. Unable to swim, she called for help.

South Africa Government Handed German Protest Against Discrimination

CAPE TOWN, South Africa, July 6.—The South African government has handed a new note to the South African government, objecting to discrimination against German citizens.

The note hints at possibility of strained economic relationship unless South African civil authorities change the policy of racial discrimination, empire and Dutch leaders, even though they may be higher than those of German and Italian contractors.

MAPLE LEAFS ALL IN WITH TO DEFEAT UNIONS

Cop First Triumph in Junior Circuit

TWO smashing single base blows in the ninth inning produced the run which gave Maple Leafs their first triumph in the Junior Baseball League race. The Leaflets edged out a 7-6 triumph at Renfrew Park last night against the Unions as they rallied in the last three innings.

First Baseman Coffin and Third Sacker Carmichael punched out the hit as Leafs staged their final rally. It was the second time during the game Leafs had the edge up as they started strategy for a run lead and then followed after the third frame and Unions appeared to have the game in the bag until the seventh inning.

TENSE FINISH
While the teams earned most of their runs, the game lagged in spots and errors came often. However, there were several thrilling moments during the contest which ended up with many more moments.

Coach Neil Colville used 14 players as the Leafs staggered to their final triumph of the season. Four of the 14 Leafs were pitchers as the Lions, then Devlin, then Field and finally Sawchuk did the pitching duties for the Leafs.

Unions, missing their best battery combination, the Lupul brothers, worked the game with only nine players and Specs MacDonald performed fairly well for the full route. MacDonald was strongest during the middle frames and worked somewhat near the end as the Leafs drummed up a five-hit inning in two innings.

LEAFS BEAT STRONGER
Leafs, however, will be much stronger when Coach Colville starts his wide variety of plays. Many newcomers out last night showed promise and the rugged lineup will turn out a battling squad before the season is over.

Duke, a newcomer from Spruce Grove, Coffin and Carmichael, also a newcomer, led the Leafs against MacDonald, both pitchers, led the Unions.

Many communities along the small creeks have not reported any water until weekend bridges are constructed on their communications by wire are restored.

WALLS OF WATER

Although midnight Tuxedo's cash game is the most popular, the late-walks of water estimated by some to reach 20 feet in height are the most dramatic and mysterious. It is rumored the thunder is caused by the rushing of water, livestock and automobile tires.

Armed deputies and state police scan a watchful eye on the area because of the possibility of a riot. Flammingsburg, 28 miles to the north, has been hit by a similar "rain" some feeling already has been going on.
